

Material Culture Review

Revue de la culture matérielle

IMAGE SPECIFICATIONS

Images should not be imbedded in the document. Instead, indicate their placement in the text with a caption. All images should be mailed on a CD, emailed to mcr_rcm@cbu.ca, or sent via dropitto.me.

To deliver via dropitto.me:

- Click http://dropitto.me/mcr_rcm
- Your password is `mcr_rcm`
- Click on Browse and a window will open
- Select the files or the image you wish to deposit
- Click UPLOAD to submit

Accepted Formats: Jpeg or Tiff

Image quality: All photographs must be in focus and, to the best degree possible, well lit. It is also important that the photographer ensure the camera is set to take the highest resolution photo possible.

Image Size: The size of the image can be defined by its pixel resolution. In order to meet the printing standard of 300 dots per inch of resolution, most images submitted to the journal should be a minimum of 1500 x 1500 pixels. Larger images are always welcome; if smaller images are too small they will be discarded from the article.

Print size of image (in inches)	Minimum Required Pixel Resolution / Dimensions
8.5" x 11"	2550 x 3300
8" x 10"	2400 x 5700
5" x 7"	1500 x 2100

To identify the pixel resolution of your photo:

Mac Users:

- Right click (or control+click) on the image file
- Click on "Get info"
- Click the drop down triangle left of "More Info"
- We generally don't print images much larger than 5" x 7" but the more pixels, the better the quality

PC Users:

- Right click on the image file
- Click on Properties
- Click the "Details" tab
- We generally don't print images much larger than 5" x 7" but the more pixels, the better the quality
